Annual Statistical Report for 2016-17

Preface

This fiscal year 2016-17 report prepared by the Medical Services Branch, pursuant to Section 36 of *The Saskatchewan Medical Care Insurance Act*, is a statistical supplement to the Saskatchewan Ministry of Health Annual Report. It contains statistical data concerning the programs administered by the Medical Services Branch, including the Medical Services Plan (MSP), medical education and medical remuneration.

Highlights

Medical Services Plan

The Medical Services Plan (MSP) provides coverage to Saskatchewan residents for a variety of physician, optometrist and dental services. The Plan also provides funding to support clinical services provided by faculty at the College of Medicine, medical resident salaries and a range of physician recruitment and retention initiatives.

In 2016-17, the MSP provided for **in-province expenditures** of \$896.7 million, while **program payments** totalled \$106 million and **medical education payments** were \$67.6 million. Utilization increases were seen in optometry related to expanded coverage for diabetic eye exams whereas utilization of dental services decreased in 2016-17.

- ⇒ **Benefits paid for insured services** - provided by physicians, optometrists, and dentists - amounted to \$681.9 million, an increase of 6.9% on a per capita basis (Table 8) from the previous year. Over the last five years the cost of these benefits has grown on average by approximately 4.8% per year.

	2015-16 (000's)	2016-17 (000's)	Per Capita Change
Physicians	\$623,333	\$667,247	4.80 %
Optometrists	\$12,397	\$12,880	1.70 %
Dentists	\$2,157	\$1,725	-21.80 %
Total	\$637,887	\$681,852	6.9 %

- ⇒ **Number of insured services** - provided by physicians, optometrists, and dentists – totalled 13.4 million services, an increase of 2.8% on a per capita basis (Table 7) from the previous year. Over the last five years the number of services has grown on average by 3.3% per year.

	2015-16 (000's)	2016-17 (000's)	Per Capita Change
Physicians	12,627	12,979	0.58 %
Optometrists	356	378	4.19 %
Dentists	19	13	-31.25 %
Total	13,002	13,370	0.64 %

- ⇒ **Out-of-Province:** Payments for Saskatchewan beneficiaries receiving insured services (physician, dentists, optometrist and hospital) outside of Saskatchewan totalled \$134.2 million, down 12.6% from the previous year. Over the last five years, expenditure on out-of-province services has increased on average by 1.3% per year.
- ⇒ **Cost of out of province residents receiving services** (physician and hospital) within Saskatchewan (excluding Quebec and Out-of-Canada Beneficiaries) totalled \$42.5million (Table 12 & 14a) a decrease of 2.6%. Over the past five years, hospital and physician costs for non-Saskatchewan beneficiaries have increased on average by 2.5% per year.
- ⇒ **Cost of services outside of Canada for Saskatchewan patients with prior approvals** totalled \$1.6M, a decrease of 41.9% from the previous year.

	2015-16	2016-17
Number of Patients	45	39
Practitioner Costs (000's)	\$617	\$274
Hospital Costs (000's)	\$2,163	\$1,339
Total Costs (000's)	\$2,780	\$1,613

Note: the number of patients receiving out-of-country services in a year may not equal the number of out-of-country prior approvals during the year. Reasons include patients not going or not receiving treatment in the same year or patients requiring on-going care over two or more years.

Physician Remuneration

- ⇒ Payments for fee-for-service in-province physicians, excluding the emergency coverage programs, totalled \$548.7 million in 2016-17 (see *Total Expenditures 2016-17*), an increase of 4.3% from 2015-16.
- ⇒ Non-fee-for-service funding arrangements for physician services represent a large area of provincial health expenditures. In 2016-17, this sector accounted for \$334 million, 27.7% of the Saskatchewan Ministry of Health's total in-province services expenditures. The majority of non-fee-for-service expenditures are in areas of medical services associated with Regional Health Authority (RHA) operations (e.g. radiology, laboratory and emergency services).
- ⇒ Average payment per physician is calculated based on total payments (includes payments and shadow billings – define as physicians who are not billing fee-for service (FFS), and whose submissions to MSB do not generate an actual payment) in a given year divided by the number of active physicians. In 2012-13 and 2013-14, payments for programs negotiated in the last Saskatchewan Medical Association agreement, including Family Physician Comprehensive Care, Metro On-Call, General Practitioner Specialist, Chronic Disease Management and Physician Compensation Quality Improvement Program, were included in the average payment calculation, which resulted in an over-statement of average payment for physicians - most notably General Practitioners. For example, the average program payment to a General Practitioner in 2013-14 totalled approximately \$21,000. Since 2014-15, the methodology has been refined and program payments have been removed. This provides a more precise description of the clinical earnings of physicians across Saskatchewan. As a result of this change in methodology, comparisons of average payments pre and post 2014-15 should be done with caution.
- ⇒ Average payments to active physicians vary by specialty (Table 25):

General Practitioners	\$254,100
Specialists	\$447,900
All Physicians	\$343,400

(see "Active" definition - *Statistical Figures and Tables*)

Physician Supply

- ⇒ Physician supply is measured in two ways: the number of active physicians (those billing more than \$60,000 in the fiscal year) and the number of licensed physicians (the total number of those qualified to practice in the province at the end of the year). Information in this report is presented based on either active or licensed physician numbers in order to improve accuracy.
- ⇒ **Licensed physicians:** (see "Licensed" definition - *Statistical Figures and Tables*) The number of licensed physicians on March 31, 2017 was 2,491, an increase of 4.9% from the previous year. Over the past five years, the number of licensed physicians has grown on average by 4.7% per year.
- ⇒ **Active physicians:** (see "Active" definition *Statistical Figures and Tables*) The number of active physicians on March 31, 2017 was 1,771, an increase of 4.2% from the previous year. Over the past five years, the number of active physicians has increased on average by 4.0% per year.
- ⇒ The number of **active rural general practitioners (GP)** was 248 at March 31, 2017, a decrease of nine physicians or -3.5% from the previous year. Over the last five years the number of active rural GPs has increased on average by 4.4% per year (Table 24).
- ⇒ The number of **active GPs in metro areas** (Regina and Saskatoon) has grown to 478, an increase of 28 physicians or 6.2% from the previous year. Over the past five years, the number of active metro GPs has increased on average by 3.9% per year (Table 24).
- ⇒ The number of **active GPs in other urban areas** has grown to 229, an increase of 18 physicians or 8.5% from the previous year. Over the past five years, the number of active urban GPs has increased on average by 4.3% per year (Table 24).
- ⇒ The number of **active specialists** has grown to 816, an increase of 35 physicians or 4.5% from the previous year. Over the past five years, the number of specialists has increased on average by 4.2% per year (Table 24).
- ⇒ **Turnover/Change of Practice:** Each year physicians relocate to and from Saskatchewan, as well as move within the province or change the nature of their practice. Turnover is calculated as the percentage increase or decrease from the active physicians

practicing at the end of the previous fiscal year compared to active physicians practicing at the end of the current year. Turnover reflects the percentage of physicians who have changed their practice from one year to the next; it does not reflect the percentage of physicians not retained. Turnover for all physicians has increased by 2.4% from the previous year (Table 18).

	2015-16 Turnover	2016-17 Turnover
Rural GPs	16.5%	20.8%
Metro GPs	5.8%	10.9%
Urban GPs	12.9%	7.5%
All Physicians (incl. Specialists)	9.3%	11.7%

⇒ Physician supply is affected by a number of initiatives and programs supported within the Medical Services Plan including the Saskatchewan International Physician Practice Assessment (SIPPA) program and an increase in the retention rate of University of Saskatchewan (U of S) family physicians. See Appendix for more information on recruitment and retention initiatives.

Educational Programs

- ⇒ The Medical Services Branch supports the Medical Education System managed by the College of Medicine, with funding of \$67.6 million in 2016-17 (including Clinical Services Fund and various bursaries). The Medical Education System covers the following areas:
 - ↳ Clinical Services Fund;
 - ↳ Programs and stipends such as the Academic Clinical Funding Plan, International Medical Graduates (IMGs), distributive medical education, student loan interest relief, JURSI (Junior Undergrad Rotating Student Internship) stipend and the Academic Health Sciences network; and,
 - ↳ 447 post-graduate medical resident positions, including distributed post graduate medical education in Prince Albert, Swift Current, La Ronge, Moose Jaw and North Battleford (see Table 33).

Medical Services Plan Coverage Benefits

Eligibility for Benefits

The Medical Services Plan (MSP) provides coverage to Saskatchewan residents for a variety of physician, optometrist, and dental services.

All residents of Saskatchewan, with a few exceptions (e.g. members of the Canadian Armed Forces and inmates of Federal Penitentiaries) are eligible to receive benefits, with the sole requirement being residency and registration with Health Registration Services at eHealth. No premiums are levied.

Insured services are governed by *The Saskatchewan Medical Care Insurance Act*, and further defined in the respective Payment Schedules established under the Act.

Subject to the exclusions detailed later in this section, the following services are insured:

Physician Services

Medical Services - The diagnosis and treatment by a physician of medical conditions.

Surgical Services - Surgical procedures by a physician including diagnosis, pre- and post-operative care and the services of physician surgical assistants when required.

Maternity Services - Care during pregnancy, delivery, and after care by a physician.

Anaesthesia - The administration of anaesthesia by a physician including:

- ⇒ anaesthesia for diagnostic, surgical and other procedures;
- ⇒ obstetrical anaesthesia;
- ⇒ anaesthesia for pain management; and,
- ⇒ all dental anaesthesia primarily for patients under 14 years.

Diagnostic Services includes:

- ⇒ out-of-hospital x-ray services, including interpretation, provided by a specialist in radiology),
- ⇒ an approved list of office-based laboratory services provided by a physician other than a pathologist; and,
- ⇒ other diagnostic services provided by a physician.

Preventive Medical Services includes:

- ⇒ immunization services where not available through any government or regional health authority;
- ⇒ examination and report for adoptions for both child and parents;
- ⇒ examination and report for persons becoming foster parents; and,
- ⇒ a routine physical examination by a physician.

Cancer Services - Services for the diagnosis and treatment of cancer, except when provided by physicians under contract with the Saskatchewan Cancer Agency.

Optometric Services

Coverage for routine eye examinations, partial examinations and tonometry by optometrists is limited to the following four categories of persons:

- ⇒ those under the age of 18;
- ⇒ Supplementary Health Program beneficiaries;
- ⇒ recipients of Family Health Benefits Program;
- ⇒ those with a diagnosis of diabetes; and,
- ⇒ patients 65 or older receiving a Seniors Income Plan supplement.

For eligible beneficiaries, the frequency of routine eye examinations to determine refractive error is limited to the following:

- ⇒ for patients less than 18 years of age examinations are limited to once every 12 months (this coverage is provided by MSP);
- ⇒ for patients 65 or older who qualify for one of the special programs listed above, examinations are limited to once every 12 months;
- ⇒ for patients aged 18 to 64 who qualify for coverage under one of the special programs listed above, examinations are limited to once every 24 months.

The assessment of ocular urgencies and emergencies provided by an optometrist, for select diagnoses, is also insured. Effective October 1, 2014, an annual eye exam for patients diagnosed with diabetes is also insured along with select diagnostic tests.

Dental Services includes:

Services in connection with maxillofacial surgery required to treat a condition caused by an accident;

Certain services in connection with abnormalities of the mouth and surrounding structures;

Services for the orthodontic care of cleft palate upon referral to a dentist by a physician or another dentist;

Certain x-ray services when provided by a dentist who is a specialist in oral radiology; and

Extraction of teeth medically required to provide:

- ⇒ heart surgery;
- ⇒ services for chronic renal disease;
- ⇒ head and neck cancer services; and,
- ⇒ services for total joint replacement by prosthesis where the beneficiary was referred to a dentist by a specialist in the appropriate surgical field and where prior approval from Medical Services Branch of the Ministry of Health was received.

Dental implants are covered in exceptional circumstances:

- ⇒ tumours – including benign and malignant; and,
- ⇒ congenital – including cleft palate and metabolic.

For dental implants, the referring specialist in oral maxillofacial surgery must request and receive prior approval from Medical Services Branch of the Ministry of Health.

Chiropractic Services

The Medical Services Plan only provides coverage for chiropractic x-rays provided by a chiropractor. The total payments and number of these services are traditionally very low and, unless otherwise noted, have not been included in the data of this report. In 2016-17 Supplementary Health Program beneficiaries, recipients of Family Health Benefits Program and seniors (age 65+) receiving a Seniors Income Plan supplement were covered for a maximum of 12 chiropractic services per year.

Out-of-Province Services

Physician Services

Services provided by physicians in other provinces except Quebec, are covered by a reciprocal billing arrangement. Saskatchewan beneficiaries are not normally billed for publicly funded physician services provided in other provinces upon presentation of their Health Services Card except for certain services excluded from the reciprocal billing arrangement. In most cases, physicians bill the provincial health plan of the province in which the services are provided. The host plan then bills the home province of the patient for the services provided.

Non-emergency services provided outside of Canada are only insured with prior approval from the Medical Services Branch of the Ministry of Health. Emergency physician services obtained out-of-country are reimbursed at Saskatchewan rates.

Hospital Services

Hospital services provided to Saskatchewan beneficiaries in other provinces are covered by a reciprocal billing agreement between provincial public health plans. The hospital bills the provincial health plan of the province in which services are provided. The host plan then bills the home province of the patient for the services provided.

Emergency hospital services for persons travelling outside Canada are covered on the following basis: up to \$100 (Canadian) per day for in-patient services and up to \$50 (Canadian) for an out-patient visit. Non-emergency hospital services provided outside Canada are covered only if prior approval has been obtained from the Medical Services Branch of the Ministry of Health.

Exclusions

The Medical Services Plan does not insure the following services::

- ⇒ health services received under other public programs including: *The Workers' Compensation Act*, federal Department of Veteran Affairs, *The Mental Health Services Act*;
- ⇒ the cost of travel, accommodation and meals;
- ⇒ surgery for cosmetic purposes;
- ⇒ any mental or physical examination for the purpose of employment, insurance, judicial proceedings/ requirements, vehicle seatbelt exemptions or at the request of a third party;
- ⇒ autopsy;
- ⇒ ambulance services and other forms of transportation of patients;
- ⇒ services provided by special duty nurses;
- ⇒ services provided by chiropodists, podiatrists, naturopaths or osteopaths;
- ⇒ services provided by chiropractors – except x-rays provided by chiropractors, and for those beneficiaries covered under the Supplementary Health Program, Family Health, or Seniors Income Plan;
- ⇒ dentistry, except as described under Insured Services - Dental Services;
- ⇒ drugs and dressings;
- ⇒ appliances (e.g. eyeglasses, artificial limbs);
- ⇒ routine eye examinations by physicians – coverage is limited to those beneficiaries who would be covered under the optometric program;
- ⇒ electrolysis;
- ⇒ dental anaesthesia provided in conjunction with an insured service where the patient is 14 years or over;
- ⇒ reversals of sterilization for the purposes of restoring fertility;
- ⇒ implantation of penile prosthesis;
- ⇒ removal of lesions for cosmetic purposes;
- ⇒ injection of asymptomatic varicose veins;
- ⇒ non-medically required circumcisions; and,
- ⇒ breast screening mammographies for women 50 years of age and older (available and funded through the provincial Screening Program for Breast Cancer).

Methods of Payment

MSP makes payment for insured services by the following methods:

- ⇒ fee-for-service billing by practitioners or professional corporations based on negotiated fee schedules; and,
- ⇒ salary, contractual or sessional payment arrangements funded through Regional Health Authority Boards and the College of Medicine.

The Primary Health Services Branch provides global funding for the operation of four community clinics.

Practitioners may choose to practice entirely outside MSP, in which case the services provided by that practitioner are uninsured.

Professional Review

A Joint Medical Professional Review Committee with the professional association and licensing body evaluates the billing patterns of practitioners. This committee is empowered to order the recovery of payments that have been inappropriately billed by practitioners (see Table 2).

Note: Ministry funding for physician services may not equal physician expenditures by RHAs.

Statistical Figures and Tables

Introductory Notes

General – The following tables are based upon MSP payments made during 2016-17 on a fee-for-service and non-fee-for-service basis for medical, optometric and dental services provided to Saskatchewan beneficiaries.

A global system of payment for medical services is used for four community clinics in the province; however, services are recorded on the same basis as fee-for-service items (shadow billing). Many alternate payment projects, including primary health care projects, have their services recorded on the same basis as fee-for-service items (shadow billing). For statistical purposes, all shadow-billing data is reported in this document.

Most tables include data, where noted, on services provided to Saskatchewan residents by practitioners outside the province. Tables 12, 14a and 14b are the only tables that present Saskatchewan physician and hospital data for services provided to out-of-province beneficiaries. Tables 13a, 13b, 14a and 14b are the only tables that show data related to the hospital reciprocal billing system.

The statistical tables exclude data on services paid by MSP to physicians and optometrists on behalf of Saskatchewan Government Insurance. The tables also exclude payments made through the Specialist Emergency Coverage Program with the exception of Table 27.

Data Limitations – Numbers of certain services or service groupings may differ from year to year as a result of bundling/unbundling or restructuring fee codes through Payment Schedule changes. The level of shadow billing for other than fee-for-service methods of payment can impact the data presented in this report.

Date of Payment – Statistics are based upon the date the service was paid, as opposed to the date the service was provided. Statistics for the fiscal year 2016-17 include some services provided in 2015-16. Fiscal years typically consist of 26 pay runs.

Payment Adjustments – The difference between payments shown in *Total Expenditures 2016-17* and the total payments shown in the statistical tables is due to accounting adjustments (e.g. accrual accounting; the handling of payments to and from other provinces for claims processed under the reciprocal billing arrangement); certain recoveries, adjustments for retroactive payments; the handling of medical and optometric services provided in community clinics and funded on a global basis through the Primary Health Services Branch; the handling of claims for medical services provided in alternate payment projects; and the payment for medical services through other non-fee-for-service remuneration arrangements.

Payments to Locum Tenens – Where a physician acts as the principal for a locum tenens physician who is not fully licensed by the College of Physicians and Surgeons of Saskatchewan, payments for services provided by the locum are made to the principal, unless the locum is granted a conditional, provisional or long-term locum license by the College.

Retroactive Payments – From time to time, MSP is required to make payments retroactively to practitioners, pursuant to agreements with the respective professional associations. Any such payments, whether included or excluded from the data tables, are included in the *Total Expenditures 2016-17*.

Optometric Services under Supplementary Health – For statistical purposes optometric data for services paid under both MSP and the Supplementary Health Program is reported in this document.

Definitions of Service Groupings (Tables 7 to 10, 15 and Figure 2)

Service groupings are based on CIHI's (Canadian Institute for Health Information) national grouping system categories.

- (a) **Consultations** – a consultation is the referral of a patient by one physician to another for examination, diagnosis, and requires a written report. The patient may return to the referring physician for treatment or receive treatment from the consultant.
- (b) **Major Assessments** – a major (complete or initial) assessment comprises a full history review, an examination of all parts or systems, a complete record and advice to the patient, and may include a detailed examination of one or more parts or systems. A major assessment may be provided to new or former patients. Chronic disease management visits and eye examinations by physicians are included here.
- (c) **Other Assessments** – Other assessments are visits that comprise history review, history of the presenting complaint, and an examination of the affected parts, regions or systems. Follow-up assessments, well-baby care provided in the office, visits to special care homes and continuous personal attendance are included in this classification.
- (d) **Psychotherapy/Counselling** – Includes treatment interview, group therapy, and counselling (including healthy lifestyle/health education counselling).
- (e) **Hospital Care** – Physician services provided in a hospital on a visit per day basis including newborn care in hospital and including attendant and supportive care. Hospital visits, covered by a composite payment such as hospital care following surgery, are not included.
- (f) **Special Calls and Emergency** – Includes surcharge payments made in association with visits or other services provided by physicians when specially called to attend a patient on a priority basis; follow-up house calls not specially called; special calls for additional patients seen; and any non-system-generated out-of-hours premiums.
- (g) **Major Surgery** – All 42 day surgical procedures excluding those falling in the Obstetrics classification. The “day” classification refers to the number of days of post-operative care included in the procedural fee.
- (h) **Minor Surgery** – All 0 and 10 day surgical procedures excluding those falling in the Obstetrics classification.
- (i) **Surgical Assistance** – Services of physicians as required to assist the surgeon at an operation, includes assistant standby.
- (j) **Obstetrics** – Includes hospital stay, abortions, caesarian sections, but excludes gynaecological surgery, and pre- and post-natal visits. Fetal monitoring and transfusions are included here.
- (k) **Anaesthesia** – All anaesthetic procedures, pain management and pain clinic services are included in this category.
- (l) **Diagnostic Radiology** – All out-of-hospital technical procedures and interpretations by specialists in radiology.
- (m) **Laboratory Services** – All common office laboratory services provided by a physician other than a pathologist.
- (n) **Other Diagnostic and Therapeutic Procedures** – All types of diagnostic procedures, allergy tests, ultrasound, professional interpretations of procedures, biopsies, therapeutic procedures, injections, Papanicolaou smears, and resuscitation and intensive care.
- (o) **Special and Miscellaneous Services** – Includes medical examinations for adoptions, for rape victims, for follow-up cancer reports; examinations and certifications of mental health; immunizations where not elsewhere available; intralesional injections; rural emergency coverage payments; advice by physicians to allied health personnel via telecommunications; and any other services not elsewhere classified.
- (p) **Services by Optometrists** – Includes eye examinations to determine the refractive state of the eye, partial examinations, tonometry testing, diabetic eye exams and assessments of ocular urgencies and emergencies when provided by an optometrist. Optical coherence tomography and retinal photography are also insured for individuals with a diagnosis of diabetes.
- (q) **Dental Services** – Includes certain insured services provided by dentists, i.e. oral surgery, or orthodontic services for care of cleft palate, and the extraction of teeth necessary to be performed before the provision of certain surgical procedures. Includes coverage of dental implants, in exceptional circumstances, where prior approval from Medical Services Branch of the Ministry of Health was received.

Categories of Practitioners (Tables 15, 18 to 26, 31, 32 and 34)

I. Physicians

- (a) **General Practitioner** – A physician registered with the College of Physicians and Surgeons of Saskatchewan whose name does not appear on the specialist listing mentioned in (b) below. This includes physicians who, while not Canadian or foreign certified specialists, limit their practice to specific specialty areas.
 - (i) **Metro** – A general practitioner who practises in Regina, Saskatoon, or a recognized bedroom community.
 - (ii) **Urban** – A general practitioner who practises in a locality having 10,000 or more residents other than in Regina or Saskatoon.
 - (iii) **Rural** – A general practitioner who practises in a locality having fewer than 10,000 residents.
 - (iv) **Association** – A general practitioner who maintains patients' medical records with one or more physicians.
 - (v) **Solo** – A general practitioner who is not working in association with another physician.
- (b) **Specialist** – A Canadian certified physician listed by the College of Physicians and Surgeons of Saskatchewan is eligible to receive MSP payments at specialist rates. As of April 1, 2004, a foreign certified physician is eligible to receive MSP payments at specialist rates for both visits and procedures. If a physician becomes a certified specialist during the year, only those services provided after certification are included with specialist services.

- II. **Optometrist** – A practitioner registered with the Saskatchewan Association of Optometrists.
- III. **Dentist** – A practitioner registered with the College of Dental Surgeons of Saskatchewan.

Notes:

Definition of a Licensed Physician – Physicians with their own MSP billing number who are licensed by the College of Physicians and Surgeons of Saskatchewan and practising in Saskatchewan under MSP coverage at the end of the year; includes temporary licensed locum physicians but excludes educational locums and medical residents.

Definition of Active Physician – Licensed physicians receiving \$60,000 or more in MSP payments (or shadow billings) during the year and practising in Saskatchewan under MSP coverage at the end of the year. Data captured for physicians participating in non-fee-for-service arrangements may not be complete. General Practitioners are categorized in the location group in which they earned the most income if they practised in various clinics or areas throughout the year.

Average Annual Per Cent Change 2012-13 to 2016-17	3.94	2.07	0.91	1.16

¹ All physician, optometric and dental insured services are included. Includes payments for rural emergency coverage but excludes payments for specialist emergency coverage.

² Current year cost per capita figures have been adjusted for program coverage and covered population to allow for comparison to the previous year. The total per cent change in per capita costs compares the adjusted per capita payments from one year to the next.

³ Lump sum payments in lieu of retroactive amendments to Payment Schedules made to physicians are excluded.

⁴ Fee schedule increases are based on theoretical values of fee and new items increases.

⁵ The change in utilization may be affected by changes in data capture for physicians participating in or switching to non-fee-for-service arrangements.

* Turnover includes physicians who have left the province, physicians who have moved to different communities within the province, physicians who did not meet the billing threshold and physicians who remain in the same location but have changed specialties. Turnover does not reflect the percentage of physicians not retained.

¹ Physicians with their own MSP billing numbers receiving \$15,000 or more in the fourth quarter and practising in Saskatchewan at the end of the fiscal year.

² Physicians with their own MSP billing numbers receiving \$15,000 or more in the fourth quarter of two consecutive years and practising in Saskatchewan at the end of both fiscal years.

Notes:

- 1) The net number of physicians who entered practice in 2016-17 was 229, the difference between "Practising" (1,730) and "Still Practising" (1,501).
- 2) Data capture may not be complete for physicians participating in non-fee-for-service arrangements. Data, including the number of active physicians, may be affected by the extent of shadow billing.
- 3) All current recruitment and retention initiatives are outlined in the Appendix.
- 4) The table has been adjusted historically, as Lloydminster is now classified as a Urban Community.

- ¹ Physicians are shown in specialties or general practice in accordance with the listing of the College of Physicians and Surgeons of Saskatchewan at the end of the year.
- ² The size of practice is the number of discrete beneficiaries on whose behalf a claim was paid during the year.
- ³ A patient contact represents each time a physician saw a patient regardless of the number of services provided at the time. The limit is one contact per patient, same doctor, same date of service. X-ray, ultrasound and laboratory services, and any professional interpretations of procedures are not considered to be patient contacts.
- ⁴ Physicians with their own MSP billing numbers receiving \$60,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year.
- ⁵ Licensed physicians, as of the last day of the fiscal year, includes temporary licensed locum physicians but excludes educational locums and medical residents.

Notes:

- 1) Earnings, size of practice and patient contacts may reflect an upward bias as a result of physicians sponsoring locums.
- 2) Data capture may not be complete for physicians participating in non-fee-for-service arrangements. Data, including the number of active physicians, may be affected by the extent of shadow billing.

¹ The place of graduation is the location at which the first medical degree was obtained.

² Physicians are shown in specialties or general practice in accordance with the listing of the College of Physicians and Surgeons of Saskatchewan at the end of the year.

³ Physicians with their own MSP billing numbers receiving \$60,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year.

Notes:

- 1) Data capture may not be complete for physicians participating in non-fee-for-service arrangements. Data, including the number of active physicians, may be affected by the extent of shadow billing.
- 2) Per Cent Distributions will not add to 100 percent due to rounding.

¹ Represents gross payments by the Medical Services Plan from which the physicians must pay overhead costs which may be high in specialties such as Ophthalmology and Radiology. The MSP payments should not be taken to represent total professional income since the physicians may receive payments from other sources, e.g. from other public or private agencies, from patients requesting services not covered by MSP. Includes payments for the rural emergency coverage program but excludes payments for the specialist emergency coverage program.

² Physicians resident in Saskatchewan at the end of the year and having their own MSP billing number.

³ Physicians are shown in specialties or general practice in accordance with the listing of the College of Physicians and Surgeons of Saskatchewan at the end of the year.

⁴ Physicians with their own MSP billing numbers receiving \$60,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year.

Notes: In 2012-13 and 2013-14, payments for programs negotiated in the last SMA agreement were included in the average payment calculation, which resulted in an over-statement of average payment for physicians, most notably General Practitioners. For 2014-15, the methodology has been refined and program payments have been removed. This provides a more precise description of the clinical earnings of physicians across Saskatchewan. As a result of this change in methodology, comparisons of average payments between 2013-14 or 2012-13 should be done with caution.

¹ Physicians are shown in specialties or general practice in accordance with the listing of the College of Physicians and Surgeons of Saskatchewan at the end of the year. Physicians with their own MSP billing numbers receiving \$60,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year.

² Represents gross payments by the MSP from which the physicians must pay overhead costs which may be high in specialties such as Ophthalmology and Radiology. The MSP payment should not be taken to represent total professional income since physicians may receive payment from other sources, e.g. from other public or private agencies, from patients requesting services not covered by MSP. Includes payments for the rural emergency coverage program but excludes payments for the specialist coverage program.

³ In 2012-13 and 2013-14, payments for programs negotiated in the last SMA agreement were included in the average payment calculation, which resulted in an over-statement of average payment for physicians, most notably General Practitioners. For 2014-15, the methodology has been refined and program payments have been removed. This will provide a more precise description of the clinical earnings of physicians across Saskatchewan. As a result of this change in methodology, comparisons of average payments pre and post 2014-15 should be done with caution.

Notes:

- 1) Earnings may reflect an upward bias as a result of physicians sponsoring locums.
- 2) Laboratory services provided by Pathologists are the responsibility of Regional Health Authorities. As a result, Pathologists' fee-for-service payments are minimal.
- 3) Changes in the number of active physicians and average payments may have been influenced by the locum billing number policy changes.
- 4) Data capture may not be complete for physicians participating in non-fee-for-service arrangements. Data, including the number of active physicians and average payments per physician, may be affected by the extent of shadow billing.

¹ Physicians are grouped as follows:

- Medical Specialists include Paediatricians, Internists, Neurologists, Cardiologists, Psychiatrists, Dermatologists, Physiatrists, and Medical Geneticists.
- Surgical Specialists include General Surgeons, Thoracic Surgeons, Orthopaedic Surgeons, Plastic and Reconstructive Surgeons, Neurological Surgeons, Obstetricians and Gynaecologists, Urological Surgeons, Ophthalmologists and Otolaryngologists.
- Technical Specialists include Anaesthetists, Pathologists and Diagnostic Radiologists.

² Physicians with their own MSP billing numbers receiving \$60,000 or more in MSP payments during the year and practising in Saskatchewan at the end of the year. Earnings may reflect an upward bias as a result of physicians sponsoring locums. Payments for the specialist coverage program are excluded.

³ Includes physicians who practise out of teaching institutions. Average payments may reflect a downward bias as a result.

⁴ Licensed Physicians are all physicians on the Medical Care Insurance Physician Registry except for those known to be retired. Educational locums, residents and interns are typically excluded.

** Not shown, to preserve confidentiality.

¹ Physicians residing in Saskatchewan at the end of the year and having their own MSP billing number. Physicians may be counted in more than one Regional Health Authority but the provincial total is a discrete count.

² General Practitioners with their own MSP billing numbers receiving \$60,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year.

³ The size of practice is the number of discrete beneficiaries on whose behalf a claim was paid during the year.

⁴ A patient contact represents each time a practitioner saw a patient regardless of the number of services provided at the time. The limit is one contact per patient, same doctor, same date of service. X-ray, ultrasound and laboratory services, and any professional interpretations of procedures are not considered to be patient contacts.

Notes:

- 1) In 2012-13 and 2013-14, payments for programs negotiated in the last SMA agreement were included in the average payment calculation, which resulted in an over-statement of average payment for physicians, most notably General Practitioners. Significant Initiatives and Programs

- ⇒ **Physician Recruitment Strategy:** Supports initiatives to increase the number of physicians within Saskatchewan, such as the Physician Recruitment Agency of Saskatchewan (saskdocs) and the Saskatchewan International Physician Practice Assessment Program (SIPPA).
- ⇒ **Specialist Recruitment and Retention Program:** Jointly managed by the Saskatchewan Medical Association and the Ministry of Health along with representation from regional health authorities and saskdocs that identifies, develops and administers programs to support the recruitment and retention of specialist physicians. Details on individual programs are available on the SMA website at www.sma.sk.ca.
- ⇒ **Specialist Emergency Coverage Program:** This program is jointly managed by the Saskatchewan Medical Association, Regional Health Authorities and the Ministry of Health in a tripartite committee. The primary objective of the program is to meet the emergency needs of new or unassigned patients requiring specialty care and to ensure fair compensation for specialists who are available to provide coverage as part of an established call rotation (see Table 27).
- ⇒ **Committee on Rural and Regional Practice (CORRP):** Jointly managed by the Saskatchewan Medical Association and the Ministry of Health along with representation from Regional Health Authorities and saskdocs that identifies, develops and administers programs to support the recruitment and retention of physicians in rural and regional practices. Details on individual programs are available on the SMA website at www.sma.sk.ca.
- ⇒ **Emergency Room Coverage:** This fund is directed to compensating physicians (through the Payment Schedule) for providing emergency room coverage in rural areas (see Table 27).
- ⇒ **Support Services:** The Ministry of Health funds a variety of other programs administered by the Saskatchewan Medical Association, including a Liability Insurance Coverage Program, a Continuing Medical Education fund, a Long Service Retention Program, and Parental Leave Program.
- ⇒ **Other Initiatives:** 1) *Family Physician Comprehensive Care and Metro On-Call Program* – Recognizes and compensates family physicians for the value and continuity of care they provide to patients when they provide a full range of services; 2) *General Practitioner Specialist Program* – Provides an incentive payment and mentorship to family physicians that provide specialty services in rural and regional areas; 3) *Quality and Access* – Encourages physicians to participate in the development and adoption of new ways of practicing to improve the quality of services and beneficiary access to services; 4) *Chronic Disease Management – Quality Improvement Program* – Voluntary program to encourage and incentivize physicians to continually improve their practice by adopting and utilizing the best and most current tools such as electronic medical record software, for providing high quality patient care; 5) *Rural Relief Locum Program* – The Ministry of Health provides funding to the Regional Health Authorities to support locum arrangements to assist with emergency and primary health medical services in rural areas; and, 6) *Electronic Medical Record Program* – Supports the adoption of Electronic Medical Records in physicians clinics.

Agreements with Professional Associations

- ⇒ The physician agreement reached in mid-2015 between the Ministry of Health and the Saskatchewan Medical Association covered four years, April 1, 2013 to March 31, 2017. It provided physicians with general fee increases of 4.9%, along with lump sum payments equal to 3.0%. The agreement also included \$6M for investing in key program areas aimed at increasing patient access to medical services, best practice, and standardized care. The agreement also included \$15M for maintaining existing physician programs that are experiencing higher utilization due to the increased number of physicians in the province (ie. Family Physician Comprehensive Care Program and the Specialist Emergency Coverage Program).
- ⇒ The optometric agreement between the Ministry of Health and the Saskatchewan Association of Optometrists covered the period April 1, 2013 to March 31, 2016. It provided a one-time lump sum payment of 1.5% in 2014-15, a 2% general fee increase effective April 1, 2015 and included expansion of an existing tonometry fee code to be billed with ocular urgency fee codes, and coverage of an annual eye exam for the management of diabetic patients effective October 1, 2014.
- ⇒ The dental agreement between the College of Dental Surgeons and the Ministry of Health covered three years, April 1, 2008 to March 31, 2011. It provided a zero per cent general fee increase in the first year, a 6.1% general fee increase effective April 1, 2009, and a 3% general fee increase effective April 1, 2010. The agreement also provided a total of \$100,000 over the term of the agreement for new items and modernization of the Payment Schedule.
