

Perinatal Patient and Family Advisory (PFA) Council

The Saskatchewan Health Authority—Regina General Hospital strives to make services better for our patients and families. The goal of the Perinatal Patient and Family Advisory Council is to serve as a formal process to involve families and parents in the policy and program decision making within the Regina area.

The PCFAC decisions can impact the Labour & Birth Unit, Neonatal Intensive Care Unit, Mother Baby Unit, and community programs including the Maternity Visiting program. Time commitment is a monthly meeting for a term of one year.

We are looking for people who:

-  Have had a birth in the last 3 years
-  Enjoy working with a wide range of people
-  Can share their ideas and thoughts related to women and children's health

If this sounds like YOU, call or email me!
